

GEO.TEX CARVED STONE

GEOMETRIC TEXTURES AND FINISHES FOR NATURAL STONE

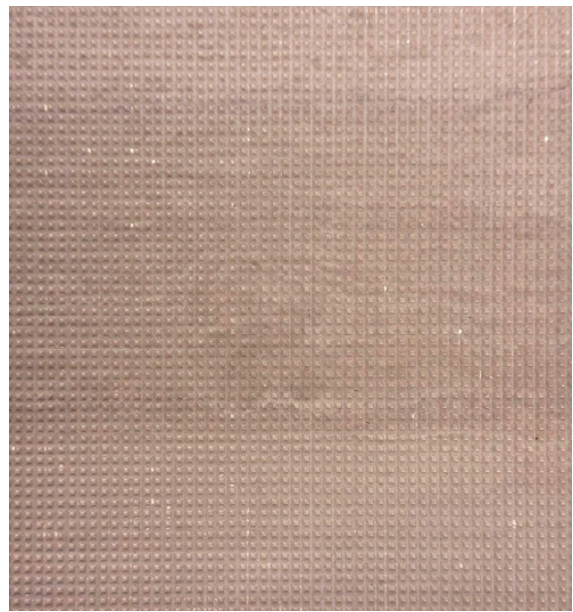

While traveling through Italy in search of innovative building materials and technologies, we had the pleasure of connecting with a Southern Italian workshop, specialized in natural stone finishing. We were introduced to their production process and impressive line of three dimensional stone textures, achieved after years of research, design, and development of highly specialized machinery. We've partnered with these artisans to bring you GEO.TEX - a selection of contemporary stone finishes crafted to add visual and tactile dimension to your residential and hospitality projects.

GEO.TEX FINISH	THICKNESS 1 CM						2 CM
	30.50 X 30.50	30.50 X 45.70 30.5 X 61	45,70 X 45,70	45.70 X 91.45	60 X 60	60 X 120	SLAB FORMAT
